## Our story:

Aguas Locas is a family-run beverage company that began during the COVID-19 pandemic. Our aguas frescas are handmade in small batches with 100% natural ingredients, real fruit, a touch of agave, and mucho amor. They are healthy, hydrating, and a celebration of Mexican culture. Our product is available throughout Los Angeles and we partner with local organizations such as Kids of Immigrants, No Us Without You, Local Hearts Foundation, and more to uplift our communities. Our mission is to share our drink with the world, providing a cultural experience with every bottle!

### What are Aguas Frescas?

Aguas Frescas are a centuries-old Aztec tradition. Translating to “fresh-waters,” aguas frescas are made by combining water with fresh fruit, vegetables, grains or flowers. Today, they are enjoyed in the streets and homes of Mexico. Aguas Locas is bringing that tradition to the world, providing authentic aguas frescas using the freshest ingredients possible.
