

TREEHOUSE

NATURALS

Ready-to-drink convenience

Recyclable aluminum can packaging is a fresh, easy and responsible way to enjoy this nutrient-rich treat

Plant-Based Simplicity

Minimal ingredients and gently sweetened with low-glycemic honey & agave nectar

Made with the Supernut

Pecans contain more antioxidants than any other tree nut, including almonds

Treehouse Pecanmilk's simple, sustainable, plant-based, on-the-go deliciousness is good, good for you, and good for all of us.

In 2015, co-founders Bess & Kate started hand-making their original pecanmilk recipe, selling it at farmers markets and through home delivery across Atlanta. Now, they're sharing it with the world.

Pecans are the only tree nut native to the U.S., which makes this milk among the most sustainable in the plant-based category.

Our all-natural, premium drink tastes great blended in

smoothies, in coffee, with coffee or even bourbon. Or just chugged as a post-workout or afternoon pick-me-up.

Our commitment to a better future goes beyond the can. We donate 1% of our profits to a carbon-neutral future.

Original Pecanmilk

This is where it all started, derived from Bess and Kate's original recipe that they first whipped up in Kate's kitchen. Each serving contains a handful of pecans, and we lightly sweeten with honey, creating a drink that is at once luscious and creamy, and light and refreshing.

Ingredients: Pecanmilk (filtered water, pecans), honey, natural vanilla flavor (containing pure vanilla extract), accacia fiber, calcium carbonate, sea salt, gellan gum

SRP: \$4.95/can

Chocolate Pecanmilk

Our chocolate pecanmilk is rich in flavor and heart-healthy fats. This milk has the double-benefit of both pecans and fair-trade, flavonoid-dense cacao for an extra antioxidant-boost of a (relatively) guilt-free treat.

Ingredients: Pecanmilk (filtered water, pecans), organic agave nectar, organic cocoa powder, natural vanilla flavor (containing pure vanilla extract), accacia fiber, calcium carbonate, sea salt, gellan gum

SRP: \$4.95/can

SPECS: 8OZ CAN UNIT: 2" X 2" X 5.25"

CASE: 8.5" X 6.25" X 5.5"

1 CASE = 12 CANS
